

# Gulfstream® PLANEBOOK for iPad

## **CARRYING, USING AND MAINTAINING YOUR PILOT'S MANUALS JUST GOT EASIER**

At Gulfstream, part of remaining The World Standard® means consistently staying at the forefront of evolving cockpit technology. It is with that philosophy that we developed PlaneBook, the newest advancement in flight-deck information architecture that provides numerous enhancements both in and out of the cockpit. Originally introduced for Microsoft Windows in 2007, we now proudly announce the availability of PlaneBook™ for Apple® iPad®.

Engineered by Gulfstream pilots and technical writers, PlaneBook provides the ultimate paperless solution. Go paperless with intelligently linked electronic documents that provide simple and fast navigation across the complete suite of pilot manuals. This is accomplished through the use of the technologically linked version of the Quick Reference Handbook (QRH). Imagine all of the information you need exactly where you expect to find it — now just a touch away on your iPad.

You may add to that capability the elegant integration of approach charts and enroute maps, and other features to enhance an electronic flight bag. Beyond the cockpit, PlaneBook can serve as a wireless personal tablet. Once you try it, you'll never go back.

## **THE INFORMATION YOU NEED – AND MORE – ALL IN ONE PLACE. JUST TOUCH THE SCREEN AND GO.**

Having the very latest in electronic document management affords instant access to your copy of the Gulfstream Flight Crew Reference Library and the exclusive, newly developed ability to download the latest, approved revisions from the Internet. This ensures that your publications are always current. PlaneBook comes to you with the necessary documents, hardware and utilities.

PRODUCT SUPPORT

## IPAD APP FEATURES:

Once a subscriber account is established, the user can log in online or via "Aircraft Mode." Aircraft Mode allows access to all previously downloaded content, but does not require a mobile connection or WiFi signal.

An "Inbox" in the upper right-hand corner notifies the user that he or she has updates waiting to be downloaded by displaying a red "badge" with a number inside that indicates the number of manuals to be downloaded.

### THE FOLLOWING ELECTRONIC FLIGHT MANUAL SUITE IS AVAILABLE FOR BOTH WINDOWS-BASED AND IPAD MEDIA DELIVERY:

- Aircraft Flight Manual (AFM)
- Aircraft Flight Manual Supplements (as required by model)
- AFM Operational Information Supplements (as required by model)
- Operating Manual
- Operating Manual Supplements (as required by model)
- Quick Reference Handbook
- Performance Handbook (as required by model)
- Operational Planning Manual (mid-size cabin airplanes)
- Pilot's Checklist
- Part 91 Master Minimum Equipment List
- Part 135 Master Minimum Equipment List
- Maintenance Operations Placarding and Procedures Manual
- Noise Information Manual
- Cold Weather Operations Manual
- Vendor Pilot Operating Handbooks (vary with model)
- Version Viewer File

### THE FOLLOWING AIRCRAFT MODELS ARE AVAILABLE ON BOTH THE WINDOWS PLANEBOOK AND IPAD APP:

G150	G400 FAA	G450 EASA
G200	G400 EASA	G500 FAA
G280**	GV FAA	G500 EASA
GIV FAA	GV EASA	G550 FAA
GIV EASA	G350 FAA	G650**
G300 FAA	G350 EASA	
G300 EASA	G450 FAA	**iPad version only

### The desktop is divided into three sections:

- "Videos", where the user can access preloaded Gulfstream videos or add their own videos.
- "PlaneBook Docs", where the user can access their downloaded manuals.
- "My Docs", where the user can access documents that they have placed there. By default, this is where the User Guide is stored.

### Other features include:

- The ability to view the items downloaded to the desktop as a series of icons or as a list.
- The "Preferences" selection, where the user can view the application version number, account information, active subscriptions on the iPad, and the ability to manage the individual files (manuals).
- A context-sensitive "Help" function that changes depending on where the user is in the PlaneBook app.
- An "Edit" button that allows the user to delete any manuals.
- A streaming news banner featuring Gulfstream-related news stories, provided the iPad has connectivity.
